## Bible Knowledge Survey

---

This Bible Knowledge Survey is taken by students in their graduating year. **The purpose is two-fold.** For the individual, this survey (while not comprehensive) offers a sense of where the student is at in their Bible knowledge and can be compared to the national average in North America. For the institution, the results are used as an important measurement for program review and accreditation. **Please know that the results will not be counted towards your GPA or any course grades. So don't be anxious, just do your best!**

### Guidelines

1. Complete the survey on your own **without accessing any sources (Bible or internet).**
2. Plan to complete the survey in **one 60-minute sitting** when you won't have any interruptions.
3. Some questions may seem obscure and the answer unknown to you, but again don't be anxious. If you don't know the answer **you are welcome to guess.**

### Step-by-Step Instructions

1. After the graduation application deadline has passed, you will receive a link in your mybriercrest email. Copy and paste that link into your web browser. It will immediately open up the exam.
2. While you are taking the exam, if you get interrupted, it will save your progress.
3. When you have completed the exam, make sure you **enter your email address** after the last question. Your test results will be emailed to you at that address.
4. Print your results as a pdf file and add them to your portfolio documents.

---

**Thank you for taking the time to do this survey.**
